# Message from the COTEC Executive Committee

The Council of Occupational Therapists for the European Countries (COTEC) proudly represents over 223,500 occupational therapists across 33 National Associations in the Member States of the Council of Europe. As a non-profit organisation (NGO), COTEC serves as the unified voice of Occupational Therapy practitioners, working to strengthen collaboration, elevate standards of practice, and advance the science and impact of occupational therapy across the continent. Our mission is clear: to ensure that occupational therapy is visible, valued, and accessible to all European citizens, addressing the evolving health and social challenges of our time.

Each year, COTEC publishes the *Summary of the Occupational Therapy Profession in Europe*, a comprehensive report compiled with input from our Member Associations. The 2025 edition continues this tradition, offering valuable insights into the profession's landscape—including workforce statistics, educational pathways, regulatory frameworks, and developments within professional associations. We are particularly encouraged by the steady growth of the profession, with more than 10,800 newly qualified occupational therapists entering the field annually across Europe. This upward trend reflects the increasing recognition of Occupational Therapy's vital role in promoting health, well-being, and inclusion.

The 2025 publication has been refreshed for greater clarity and usability. It's not only a key reference for Occupational Therapy professionals, but also a strategic resource for policymakers shaping health and social care at National and European levels. We extend our sincere thanks to our Member Associations for their continued collaboration and dedication in providing accurate and timely data. For further information or inquiries, please contact your National Association or reach out to us directly at [info@coteceurope.eu](mailto:info@coteceurope.eu).

We are proud to present the *Summary of the Occupational Therapy Profession in Europe 2025* and remain committed to advancing the profession together.

Terms like "radno-okupacioni terapeut" (which is distorted terminology in English translation means – work-occupational therapist).</p> <p>1.9 The gross salary is for entry level occupational therapist after graduation in the area of Zagreb (different cities have different taxes).</p> <p>4.1 There are great difficulties for OTs wanting to continue their academic education. Bologna process has been implemented but specific Universities disregard "the right for education" and do not allow for OTs to enter MSc and PhD education. University of applied health studies (the only OT educational institutions) has come to an agreement with Croatian Health Professions Council and Croatian association of occupational therapists and we are now jointly working on a new 3+2 (Bsc and Msc) OT education curriculum.</p> <p>4.2 OT education consists from theoretical and practical education.
